

Where to Send Your Kid to School.

Well, you should send them here to Wairakei Primary School, and here's why.

When you come to Wairakei Primary School, you will see students showing whanau in classes or outside and respect. When you go into classes, you will see students showing POWER and working on their Chromebook or working in their book.

We also have many activities like water day at the end of every year. You will need togs, and you also can bring a spare change of clothes just in case.

We have a Pet Day when you can bring your pets and do fun stuff with them, and there is other stuff you can do.

When you come to school we have a breakfast club so if you haven't had breakfast you can go there.

We also have skiing in June and July and we have year 4-5-6 camp. We go to the Gully with slides and traps so

don't touch those, and this is the reasons you should come.
We have more fun stuff.
